

OHSU Research Cores and Shared Resources

Boilerplate Request Form

OHSU's cores are your campus technology partners dedicated to the success of your project. For optimal results, take advantage of the state-of-the-art scientific resources within the OHSU community.
www.ohsu.edu/cores

Please use this form to request current boilerplates for individual cores.

Note: Facilities and resource information for individual Shared Resources and Cores are available when you need it. In addition to the standard boilerplates, if you are planning to include an OHSU Shared Resource in a grant or other project proposal, please contact the Shared Resource/Core Director for guidance with assay/service selection, study design, cost estimates, and letters of support.

Please select the core(s) below for which you would like to receive boilerplate text, and hit "Submit".

Advanced Light Microscopy Core

Bioanalytical Shared Resource/Pharmacokinetics Core

Biostatistics & Design Program

DNA Services Core

Elemental Analysis Core

Flow Cytometry Shared Resource

Gene Profiling Shared Resource

Histopathology Shared Resource

Massively Parallel Sequencing Shared Resource

Medicinal Chemistry Core

Multiscale Microscopy Core

Proteomics Shared Resource

Transgenic Mouse Models Core

Note: This document must be downloaded to your computer in order for the "Submit" button to apply, or email Hope Andersen at phillhop@ohsu.edu.
