EVENTS/ WORKSHOPS

People Management for Principal Investigators, Friday, March 8 and Saturday, March 9 - Register by Thursday, March 7. This 1.5-day course will help you learn to manage people, with a focus on the particular needs of running a lab or research group. Please note: This course is designed for faculty, postdoctoral fellows, and others who manage people working in a research setting. This course is led by Rachel Dresbeck and Jen Prissel from OHSU Research & Innovation. To register, log into Compass and search for PI People Management or locator number 65071. Questions? Write research@ohsu.edu

Explore the Interconnectedness of Housing and Health Tuesday, March 12, 12-1 p.m. Presented by Richard Bruno, M.D., M.P.H., [Webinar](#) organized by the OHSU Foundation.

OHSU Innovation Awards and Reception Thursday, March 14, 4-7 p.m. | 2024

Registration is now open for this free, in-person event open to all OHSU members. It will be a chance to meet and network with the OHSU community focused on turning innovative ideas into healthcare solutions. The celebration of the 2024 awards will be followed by a happy hour. Please register through [Eventbrite](#).

Apply to Join One of PCORI's Five Advisory Panels; submit application by Friday, March 29. These panels help guide PCORI's research funding priorities and play an integral role in advancing its mission to help people make informed health care decisions. Your voice, expertise and experience are instrumental to helping PCORI advance patient-centered comparative clinical effectiveness research (CER). Learn more [here](#).

AAMC Leadership and Management Foundations for Academic Medicine and Science seminar, March 27 - 29. More information can be found [here](#).

Mentorship Academy 2024 Intensive - Registration now open on [Compass](#).

Begins, Friday, Apr. 28 - Tuesday May, 30 - see Compass for the schedule. Intensive on Compass Registration is now open for the Mentorship Academy 1 by 1 modules. In person at the Rood Family Pavilion (RPV) Room, the 2 1/2 days of intensive training help educators from across the institution to develop mentoring competencies that foster mentee success. The target audience includes faculty, staff, and postdocs in long-term mentoring relationships with learners.

FACULTY DEVELOPMENT AND TRAININGS

Ascend Faculty Development Courses for March and April have been updated and can be found [here](#).

Faculty Development Fridays

Join OHSU colleagues for a series of professional education opportunities, including live-streamed presentations, virtual workshops, and facilitated discussions of webinars. The schedule can be found [here](#).

Camaraderie Groups

Camaraderie Groups is an OHSU Well-Being program adapted from a nationally recognized model and designed to help foster participants' sense of community, belonging, shared purpose and well-being. Camaraderie group members attend six small group discussion meetings led by two trained facilitators who utilize intentional prompts to lead conversation on a variety of thoughtful, emotional and relational topics in the spectrum of the work-life experience. Registration is now open for the third cohort of Camaraderie Groups, scheduled to run this Spring. [Registration](#) now open.

Leaders on Advice and Counsel Center

Recently, Human Resources launched the Advice and Counsel Center (ACC) as a dedicated employee relations resource supporting leaders in matters such as discipline, remediation assessments and grievance management. Thank you to the managers who have attended the ACC Leader Training session, which provides in-depth training on what the ACC is and the general process for engaging with this resource. additional trainings have been added for the month of March. You are invited to register on [Compass](#).

The Interprofessional Education Curriculum Development Award recognizes an individual or team for outstanding contributions to the development of IPE Education curricula involving courses, activities, sessions, or collaborations in the didactic, clinical, simulated or community environment. The award will be given at the annual OHSU Education Symposium closing plenary as a physical award, recognition of accomplishments, and award money up to \$3,000 to be used for attendance at an IPE-related conference for the following academic year. Faculty from across OHSU's missions, Schools and Colleges are eligible! **The nomination deadline is April 1.** Nominate through Smartsheet. More information can be found at the bottom of [this OHSU Now post](#).

- Employee Resource Groups
- Student Interest Groups
- Student Support - 503-494-7878 or studentaffairs@ohsu.edu

KUDOS

Dr. Cynthia Morris, professor and vice chair in DMICE, and Dr. Terri Hough, chair of the Department of Medicine, have received a five-year U24 grant from NHLBI to serve as the data coordinating center for the Blueprint multi-center, randomized clinical trial. The clinical coordinating center is at Duke University, with Dr. Christopher Cox as PI. Blueprint is an adaptive coping skills training intervention for post-acute care hospitalization for cardiorespiratory patients, which can address psychological distress systems by delivering self-directed, relevant content in a mobile app.

Jennifer Sullivan, a pre-doctoral student in DMICE, teamed up with Susan Hayflick, M.D., Ph.D., professor and chair of molecular and medical genetics and Amanda, McCullough, Ph.D., professor of molecular and medical genetics, earlier this year to create a rare disease student interest group. Dr. Hayflick also recommended a co-leader for the group: Michael Martinez, a student in the Ph.D. Program in Cellular and Molecular Biology. Together, they founded the OHSU group “Students for Rare” in September 2023. The group is connecting labs across campus who previously had no way to collaborate. Please find a full write up on this story [here](#).

We want to congratulate James Jacobs, MD on his new role at Randall Children’s Hospital. Dr. Jacobs was faculty and taught several classes for DMICE over the years. He initially joined DMICE in 2016 as an NLM postdoc, and also worked part-time with the Division of Pediatric Hematology & Oncology as Instructor in the Department of Pediatrics, while also caring for pediatric inpatients with hematologic & malignant conditions. His last day at OHSU is March 15th, but he will retain a faculty appointment in DMICE. We wish you the best in your new role, congratulations!

Vishnu Mohan is pleased to announce that [Clinfowiki](#) has reached a major milestone receiving 50 million hits! Clinfowiki is the largest and most-utilized free crowdsourced clinical informatics knowledge base on the internet. It currently has 1581 content pages, and 1474 registered users have contributed to the wiki. There have been 34,592-page edits since the wiki was published, which is a great surrogate measure to indicate that Clinfowiki is a living depository of knowledge that is being actively updated over time.

Keep an eye out for next quarter’s DMICE kudo board. If you missed our last board, you may view it [here](#). We encourage you to participate in celebrating your colleagues who have gone above and beyond or who have overcome some challenges. We will start collecting Kudos in April and plan to share them in June.
