

Training consists of 3 components

Clinical commitment: Fellows are expected to work 56 clinical hours per month as Emergency Medicine attendings at learner staffed Emergency Departments.

Didactic component: Fellows typically complete masters-level coursework in health professions education research, as well as formal training in education theory and methods.

Administration: The fellowship includes an experiential component that allows the fellow to function in a leadership role, and is actively involved in student and residency teaching and assessment, curriculum development, program evaluation, and simulation education.

DEPARTMENT OF EMERGENCY MEDICINE

Education Scholarship Fellowship

Now accepting applications

Develop your career in Academic Emergency Medicine as an integral member of our education leadership team.

Overview

Oregon Health and Science University (OHSU) Department of Emergency Medicine in Portland, Oregon offers a 2-year Education Fellowship. Fellows may select from a scholarship in education, education research, or other masters in education track with program approval. This fellowship is Society for Academic Emergency Medicine (SAEM) approved and ideal for Emergency Medicine residency graduates with a strong interest in academics. It provides post-graduate training in education methods, research skills, and residency program administration.

Qualifications

- Completion of an Emergency Medicine residency program.
- Strong interest in an academic career as a clinical educator.
- Interest in education methods and research.

Applications

Interested parties should forward a cover letter expressing their training and long-term goals as an academic Emergency Medicine Physician, along with a curriculum vitae, to regner@ohsu.edu.
