## LATEST UPDATES

### STRATEGIC ALIGNMENT UPDATES

DMICE is changing, and we invite you to help create the new DMICE. Our expertise is valued, and we are asked to re-envision DMICE so that our expertise can be utilized across campus in operations, population health, and a learning health system. Through 2024, DMICE will continue as a department while we re-imagine our infrastructure and clarify our focus.

There are currently no planned changes to faculty support. During any staffing transitions, we will have basic support through centralized groups, providing a stable foundation as we navigate these changes (more details on this to follow).

Dean Selden will attend our August 5th faculty meeting. We have also planned a brief faculty meeting on July 26th at 4 p.m. to give an update and discuss the questions we might want to ask during that session.

# DMICE

## LATEST UPDATES

- NIH is changing so many things that they have a new website that will be regularly updated [here](#).
- NIH Funding Opportunities: [Here](#)
- OHSU Research Funding [Alert](#)
- Latest Research [Update](#)
- Latest Knight News: [Here](#)

# KUDOS

June was a busy month for DMICE proposal submission. The EPC, in particular, deserves an Endurance Award for submitting eight task order proposals to AHRQ in ten days between June 10th to June 20th. DMICE PIs include Drs. Roger Chou, Ilya Ivlev, Annette Totten, Nancy Carney, and Amy Cantor. In addition, Dr. David Dorr submitted an RO1 proposal, Dr. Lisa Karstens submitted an R03 proposal, and Dr. Steven Bedrick submitted an RO1 renewal proposal, all to NIH.

The EPC has already received notification that three of their proposals have been funded:

Prehospital EMS Blood transfusion with Drs. Nancy Carney and Annette Totten, as principal investigators, started July 11th.

Hypofractionated Radiation Therapy for Localized Prostate Cancer, with Dr. Ilya Ivlev as principal investigator, began on July 17th.

The Performance of Fusion Procedures for Degenerative Disease of the Lumbar Spine also began on July 17th. Dr. Shelley Selph and Dr. Andrea Skelly of Aggregate Analytics, Inc., are the principal investigators.

Thank you to the PIs and everyone who contributed to the preparation and submission process. DMICE submitted one-third of its FY23-24 proposals just in June!

Congratulations to our recently promoted faculty:

- Annette Totten, Professor
- Amy Cantor, Professor
- Michael Mooney, Associate Professor
- Lisa Karstens, Associate Professor
- Ilya Ivlev, Associate Professor
- Ben Orwoll, Associate Professor, Department of Pediatrics with a joint faculty appointment in DMICE.

This promotion is a testament to their exceptional contributions, tireless efforts, and unwavering commitment to our team and OHSU. Please join us in congratulating them on this well-deserved promotion. The full list of the 2024 SoM Promotions can be found [here](#).

# FACULTY DEVELOPMENT AND STAFF TRAININGS

Curriculum Vitae/Educators Portfolio Drop-in Session Join your peers in updating your CV and/or Educators Portfolio at a drop-in session on Thursday, Aug. 1, 11 am to 2 pm, Room 217, OHSU Auditorium.
