- Medical Services for these members would not be submitted for wrap unless services fall under the carved-out services.
  - Typically - Obstetrics/ Prenatal Care, Addiction/Behavioral Health, and Dental Services
- If the PPS equivalent is less than PMPM payments received, the APCM participating health center or clinic would be reimbursed the difference through the Annual Reconciliation Process.
  - "*This reconciliation is intended to assure that the APCM revenue is at least as much as the PPS payments would have provided for the same time period. OHA will complete an annual payment reconciliation for the calendar year of Health Center's program participation where quarterly reports show APCM payments at a lesser amount than what PPS would have provided*." – APCM Participation Agreement
