

# OHSU Neurological Surgery Residency Program

**The OHSU Neurosurgery Residency Program is now recruiting for a PGY2 resident.**

OHSU is a high-volume public academic health center with experienced specialists in all surgical and supporting disciplines. Our residency program utilizes the inpatient and outpatient facilities and operative suites at the University Hospital,

Doernbecher Children's Hospital, Hillsboro Medical Center, and the Portland VA to provide our residents with a wide range of cases and patient care opportunities.

The program aims to provide comprehensive clinical, surgical, basic science and clinical research training, and to develop neurosurgeons who can provide excellent neurosurgical care to patients. Graduates will have the skills to be leaders in scientific, academic, and clinical settings.

Training in neurological surgery is rigorous and demanding. The residency training program in neurological surgery at OHSU is devoted to high standards in the practice of neurosurgery, patient care, resident education, and research.

Our neurological surgery residents get hands on experience in all areas of neurosurgical practice, including tumor, vascular and endovascular, complex spine, functional stereotaxis, skull base, pediatric, epilepsy, pain, peripheral nerve, and radiosurgery.

## Requirements:

Prerequisite to appointment at the PGY2 level is the completion of a medical degree at an accredited U.S. medical school or the equivalent, with evidence of excellent academic and clinical performance, and the completion of a surgical or neurosurgical intern year in an ACGME program. The residency, through 'Chief Residency' (PGY7) year, is based at Oregon Health & Science University. Oregon Health & Science University and the Department of Neurological Surgery are committed to representing diversity in the recruitment of residency trainees.

All applicants must be eligible for employment in the U.S.. Interested applicants should send a CV, three letters of recommendation (one from a recent program director), MSPE, USMLE transcript, and a statement of interest to [nseducation@ohsu.edu](mailto:nseducation@ohsu.edu). All applicants must be able to pass a pre-employment drug screen and background check upon hire.

## Program Leadership:

**Neurological Surgery Interim Chair:**  
Ahmed Raslan, MD

**Residency Program Director:**  
Josiah Orina, MD

**Residency Program Associate Director:**  
Jesse Winer, MD

**Education Program Manager**  
Shannon Winchester, MBA, MAT, C-TAGME
