

Have a Scary Halloween, But Not Because of Poisons.

Glow sticks are fun and bright—but don't let kids take a bite.

The liquid inside can cause irritation if swallowed or splashed in eyes.

Stay cool. Use caution with dry ice.

Wear gloves when touching dry ice. Avoid using it in an enclosed space, eating it, and do not use it in punch bowls or cups.

Be careful with cosmetics.

Only use nontoxic face paints. Throw away makeup that has expired. Test on the skin before use.

Treat or...trick?

Some medicine and drugs look like candy. Keep drugs, including marijuana edibles, out of reach to avoid mix-ups.

Almost anything can be poisonous if it's used in the wrong way, in the wrong amount, or by the wrong person.

If you suspect a poisoning, don't take a chance. Call 1-800-222-1222.
